About Us

NoCapping is the First 100% Opt-in Micro Influencer Platform Exclusively for College Student

Student-Run Marketing Firm

We are the only student run influencer marketing platform with a start-up focus.

We pride ourselves on **client satisfaction** and high-quality campaigns.

Guaranteed Genuineness

We guarantee **genuineness** through multiple rounds of product testing before any review.

We train our influencers to excel in product testing, copywriting, and social media editing.

Premier College Network

Our network is entirely opt-in with the average engagement rate of **25%** for our influencers.

With a diverse network in gender, location, and interests, we can accurately target any **niche**.

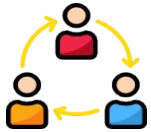
Trendsetting Content

Our influencers know about the latest trends on social media.

Our network is driven by **innovation** and **creativity**, and we are constantly engaged with the college community.

Why NoCapping

NoCapping provides companies a unique approach to marketing and creating lasting relationship with their users.



Audience

We exclusively work with everyday college students who have an engaged following.

Our competitors work with a wide range of influencers that have nothing near to college students' engagement rates.

Incentives

Our influencers are not trying to use NoCapping as a mean to grow their platform; they opt-in to receive and review products from companies they care about.

Competition

Our competitors are all very early stage and struggling with finding the right fit for their influencer programs.

Our unique approach with college students is the most effective form of micro-influencing.

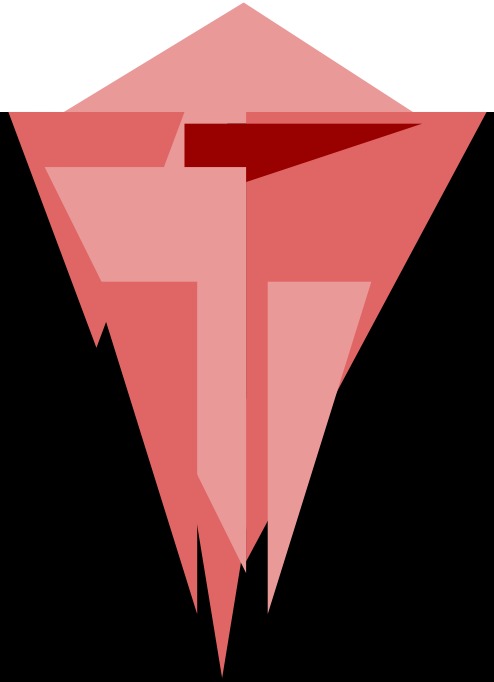
Potential

Global influencer marketing market size is growing at 32% CAGR.

NoCapping is one of the founding fathers of the micro-influencer marketing game.

What We Offer

Influencers will tryout the products before posting on Instagram



Instagram Post

The influencer will post about the product on their story and give a genuine review to their followers.

Trial Run

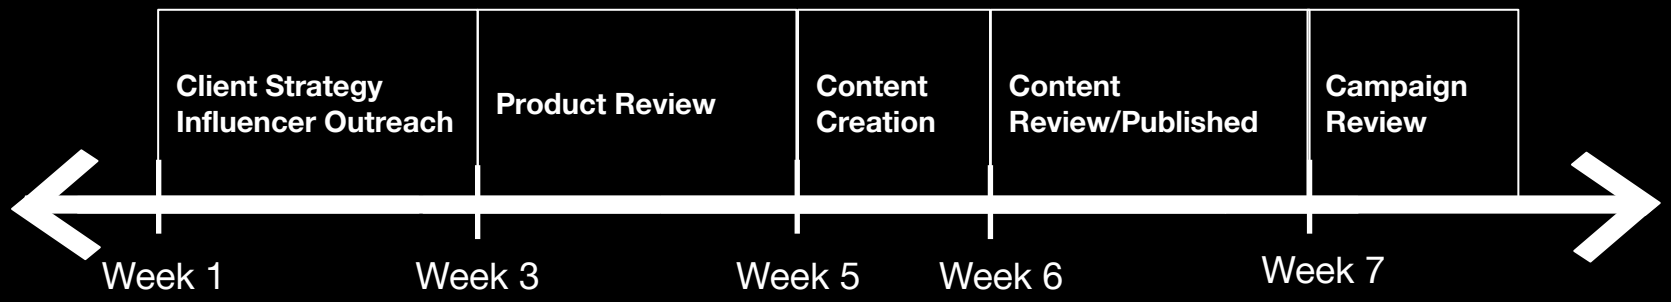
Our influencers are required to “try-out” the product for a specified period of time before making a recommendation.

Transparency

Our influencers get paired with companies that are relevant to them and they will keep an open line of communication with us through the process.

Campaign Timeline

Projects typically last 7 weeks, with weekly interaction through video calls. We usually schedule 3 longer client meetings during influencer outreach, content review, and campaign review



Cheers to a new chapter!
